### **Examples of equipment and failures to report to IRIC**

#### hip implant

fracture requiring hospital admission

#### defibrillator

failure to deliver shock undermining resuscitation

#### benchtop steriliser

failure to sterilise and risk of crossinfection

# therapeutic

strikethrough & risk of infection

mattress

# implantable pacemaker

early battery depletion & loss of pacing

#### infusion pump

interruption of infusion & deterioration in health

#### **Estates & Facilities**

### staff attack alarm

failure to activate

piped

medical gas

and suction

incorrect

NIST fittings

anti-ligature

shower

curtain rail

failure to

collapse

## door handle

incorrect installation

anti-ligature

#### mobile theatre unit

Pseudomonas contamination of water supply

#### fire door

wired glass in doors damaged & broken

# blood

**IVDs** 

incomplete results

analyser

#### pregnancy test

false negative result

# COVID lateral flow test device

missing components

**Social Care** 

bath board

collapse

### PAPR hood

**PPE** 

split in plastic face piece

#### wheeled shower stool

entrapment of leg

### rise & recline chair

handset overheating & smoking
