Freedom of Information Reference: FOI-2024-000243 – Energy Usage in Scottish Hospitals/Facilities.

I refer to your freedom of information request that we received on 21 June 2024 requesting the following information.

We were hoping to better understand energy use per hospital / facility – EUI (kWh/m2) across Scotland.

We have pulled together a summary of all the English hospitals (see image below) – which is really useful and hoped to do the same for Scotland and Wales but lack equivalent Estates Return Information Collection (ERIC) data for Scotland we have recently sourced Wales.

See Estates Returns Information Collection - NHS England Digital

Can you please advise?

We have now completed the search of our records and can provide you with the following information:

Under section 17 of the Freedom of Information Scotland Act, 2002 (FOISA) an organisation does not have to provide that information if it does not hold it. NHS National Services Scotland (NSS) does not hold the information in relation to the Energy Usage Intensity (EUI) for all Scottish Hospitals and Facilities. What we can provide you with is the EUI data for the NSS Estate only. Please find attached Appendix 1 - NHS NSS EUI data, for this information. You may wish to contact the individual Health Boards using the addresses below for further information:
